Source: World Health Organization Global Health Observatory, Tuberculosis Incidence 2020. Countries with incidence rates of ≥ 20 cases per 100,000 population. For future updates, refer to <http://apps.who.int/ghodata>.

Have you been a resident and/or employee of high-risk congregate settings (e.g., correctional facilities, long-term care facilities, and homeless shelters)? Yes No

Have you been a volunteer or health-care worker who served clients who are at increased risk for active TB disease? Yes No

Have you ever been a member of any of the following groups that may have an increased incidence of latent *M. tuberculosis* infection or active TB disease – medically underserved, low-income, or abusing drugs or alcohol? Yes No

If the answer is YES to any of the above questions, Southern Illinois University Edwardsville requires that you receive TB testing as soon as possible but at least prior to the 10th day of class.

If the answer to all of the above questions is NO, no further testing or further action is required.

** The significance of the travel exposure should be discussed with a health care provider and evaluated*
