1. What are your current 3 main areas of research?

- Women's health, ethics and politics/policy of; intersectional analysis
- Civility
- Transgender health, ethics and politics/policy of

2. What are the top 3 areas of expertise/tools you are looking for in a research collaborator?

- Experience doing qualitative studies and subject interviews, such as in sociology or anthropology
- Experience delivering health care or working in medical humanities
- Interest in the role of bias in health care provision

3. What 3 skills/tools that you have access to, are you willing to share with a potential research collaborator?

- Connections with some members of the St. Louis area transgender community
- Philosophical (conceptual and ethical) analysis of issues in health care
- Command of broad array of feminist theory (including some masculinity theory), some race theory, and intersectionality analysis which can help prevent research/theorizing from being dominated by the concerns of socially dominant groups, and provide additional lenses for research on those groups.
